

**Hasin Jahan** has been working as the Country Director of Practical Action in Bangladesh since June 2015. By training, she is a Civil Engineer from Bangladesh Engineering University of Technology (BUET) with an MSc in Water and Environmental Management from UK. She is a development professional having specialised work experience in water, sanitation, and agricultural sectors. She has proven track record in managing large scale projects targeting the poor and vulnerable population in geographically and technologically challenged contexts of Bangladesh.

Ms. Jahan supervises in improvising existing technologies and devising new ones, supports adaptation, replication, and scaling of the same through technology transfer, skill and capacity development and ensures policy influencing for sustainability. Her expertise and interest include water, sanitation and waste management, climate adaptive agricultural technologies, introducing ICT based platforms for reaching to the last miles with essential information on the early warning for disasters, agro-met services, livelihood etc.

Prior to joining Practical Action, she worked in the Local Government Engineering Department (LGED), ITN-BUET Centre- a training and research institute based in the Bangladesh Engineering University of Technology (BUET), Danish International Development Assistance (DANIDA), and WaterAid, an international NGO. Ms. Jahan works with different development and corporate partners including, the ministries and various departments of the Government of Bangladesh, city corporations/ municipalities, and academia. Her presence in the media, national level events and policy dialogues is distinguished.
